AN EXHIBITION OF PAPERWORKS BY FUJI ANGGARA & LOQMAN ZAINAL

A paperwork art exhibition typically refers to an exhibition that showcases artworks primarily created using paper as the main medium. Artists in such exhibitions often explore the versatility of paper as a material, employing various techniques such as drawing, painting, printmaking, collage, and sculpture. Paperwork art can range from traditional two-dimensional pieces to more innovative three-dimensional installations.

In *Lakaran Kertas*, the latest exhibition at KLAS, it places a strong focus on the creative possibilities of both Fuji Anggara and Loqman Zainal's work on paper, its texture, its ability to hold various types of media, and its potential for intricate and detailed work.
